=====
EXPENSE TRACKER
Track your spending with ease.
=====

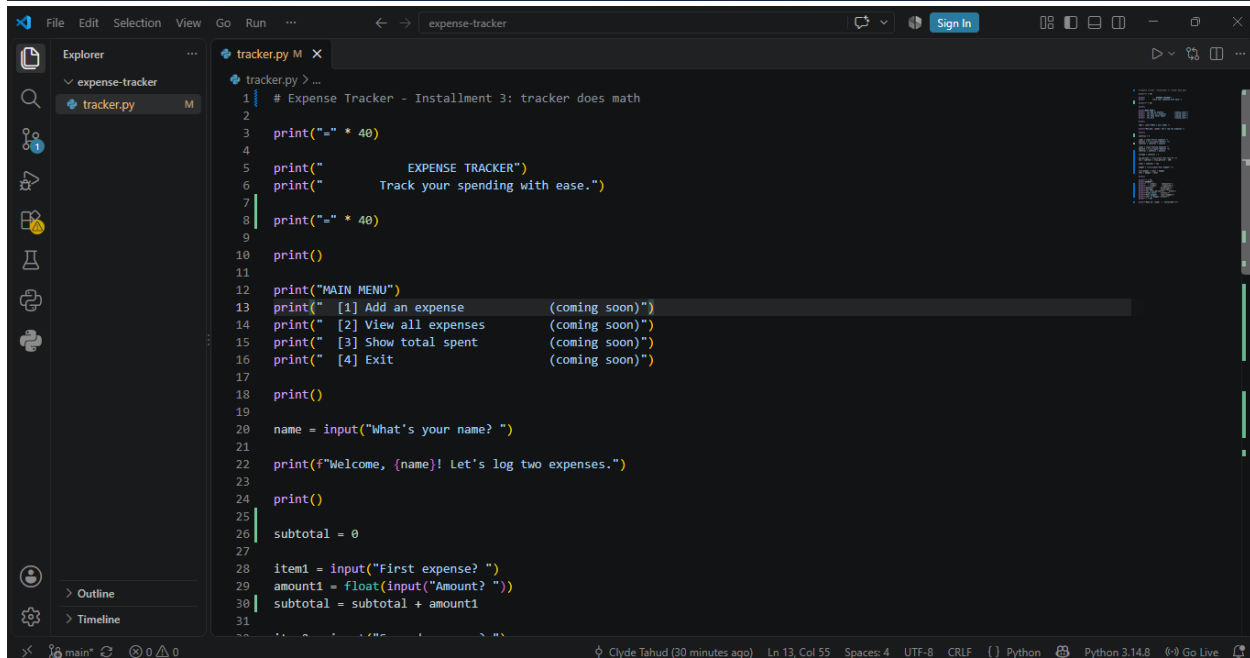

MAIN MENU
[1] Add an expense      (coming soon)
[2] View all expenses   (coming soon)
[3] Show total spent    (coming soon)
[4] Exit                (coming soon)

What's your name? Sam
Welcome, Sam! Let's log two expenses.

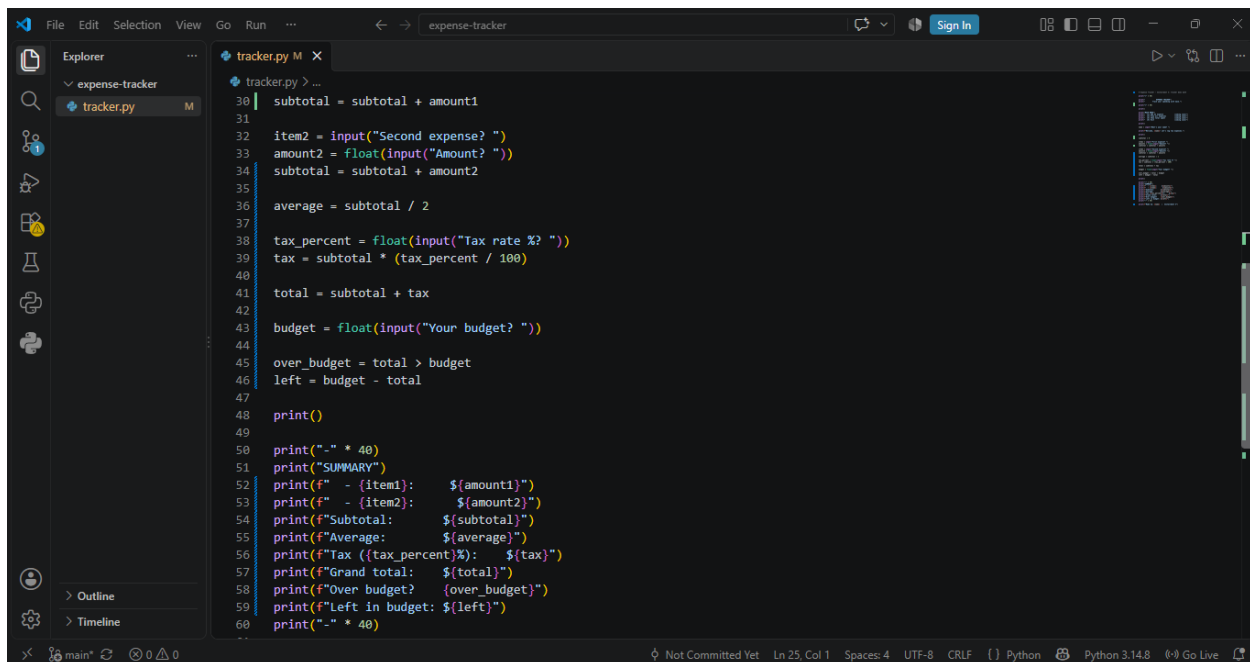

First expense? Coffee
Amount? 4.50
Second expense? Lunch
Amount? 8.00
Tax rate %? 12
Your budget? 10

=====
SUMMARY
- Coffee:      $4.5
- Lunch:       $8.0
Subtotal:      $12.5
Average:       $6.25
Tax (12.0%):   $1.5
Grand total:   $14.0
Over budget?   True
Left in budget: $-4.0
=====

The image displays two screenshots of a Visual Studio Code editor window, showing a Python script named `tracker.py` and its execution output in the terminal.

Top Screenshot:

- The **Explorer** pane on the left shows the file structure of the `expense-tracker` project, including `LAB1_TAHUD_CARL...`, `LAB2_TAHUD_CARL...`, and `tracker.py`.
- The **Tracker.py** file is open in the editor, showing the following code:

```
52 print(f" - {item1}:    ${amount1}")
53 print(f" - {item2}:    ${amount2}")
54 print(f"Subtotal:      ${subtotal}")
55 print(f"Average:       ${average}")
56 print(f"Tax ({tax_percent}%):  ${tax}")
57 print(f"Grand total:    ${total}")
58 print(f"Over budget?    {over_budget}")
59 print(f"Left in budget:  ${left}")
60 print("-" * 40)
61
62 print(f"Made by: {name} | Installation 3")
```
- The **Terminal** pane at the bottom shows the output of a `git push` command:

```
1743f7c..cbe2c84 main -> origin/main
Successfully rebased and updated refs/heads/main.
PS C:\Users\Clyde Tahud\Desktop\python-course\expense-tracker> git push

```

Bottom Screenshot:

- The **Tracker.py** file is still open in the editor, showing the same code as the top screenshot.
- The **Terminal** pane at the bottom shows the output of a `git log --oneline` command:

```
