

The screenshot shows the Visual Studio Code editor with a file named `tracker.py` open. The code is a simple Python script that prints a welcome message and a main menu. The terminal at the bottom shows the output of the script, which matches the code. The chat panel on the right is empty.

```
5
6 print("=====")
7 print("  EXPENSE TRACKER")
8 print("  Track your daily expenses")
9 print("=====")
10
11 print()
12 print("Welcome to your Expense Tracker!")
13
14 print("MAIN MENU")
15 print("1. Add an expenses (coming soon)")
16 print("2. View all expenses (coming soon)")
17 print("3. Show total expenses (coming soon)")
18 print("4. Exit (coming soon)")
19
20 print("-----")
21 print("Made by: Carlos Clyde S. Tahud | Installment 1")
22 print("-----")
23
```

Terminal output:

```
Welcome to your Expense Tracker!
MAIN MENU
1. Add an expenses (coming soon)
2. View all expenses (coming soon)
3. Show total expenses (coming soon)
4. Exit (coming soon)

```

The screenshot shows the Visual Studio Code editor with the same file `tracker.py` open. The code has been updated to include a header comment and more detailed menu options. The terminal at the bottom shows the output of the script, which matches the code. The chat panel on the right is empty.

```
1 # Expense Tracker - Installment 1
2
3 print("=" + "-" * 39)
4 print("  EXPENSE TRACKER")
5 print("  Track your spending with ease.")
6 print()
7 print("    (coming soon) Add an expense")
8 print("    (coming soon) View expenses")
9 print("    (coming soon) Expense summary")
10 print("    (coming soon) Exit")
11 print()
12 print("Welcome to Expense Tracker!")
13 print()
14 print("-" + "-" * 39)
15
```

Terminal output:

```
PS C:\Users\Clyde Tahud\Desktop\python-course\expense-tracker> python tracker.py
=====
EXPENSE TRACKER
Track your spending with ease.

(coming soon) Add an expense
(coming soon) View expenses
(coming soon) Expense summary
```
